PERSONAL PROJECTS

Diabetes Controller App (Final Year Project)

- Technologies used: Python, Dart and Firebase.
- Led the development of the Pro Fitness App, utilizing Flutter for a seamless cross-platform experience.
- Engineered targeted HIT workouts and personalized meal plans for weight gain and weight loss goals.
- Implemented an intuitive progress tracking feature to monitor workout history, weights lifted, and calories burned.
- Established a vibrant fitness community, encouraging users on transformative journeys towards healthier lifestyles.

Reminder App.

- Developed a reminder app using Flutter for efficient cross-platform functionality.
- Created a user-friendly interface with features such as setting reminder time, adding descriptions, and easy enable/disable options.
- Leveraged Flutter's rich UI widgets for visually appealing and responsive design.
- Integrated Flutter Local Notifications plugin for timely reminders, ensuring users never miss important tasks or events.

Chat Gpt Clone

- Developed a conversational app powered by OpenAI's GPT-3.5 Turbo model.
- Features a real-time chat interface for dynamic interactions.
- Utilizes AI-powered responses for insightful and engaging conversations.
- Includes user message history, voice messaging, and a clean, intuitive UI for a seamless experience.
- Proficient in REST APIs and Flutter for efficient app development.

COVID-19 Tracker App

- Developed a refined, cross-platform app using Flutter for real-time global COVID-19 incident monitoring.
- Features detailed metrics for both global and individual nation COVID-19 data.
- Utilizes Flutter charts for visually appealing and informative data representations.
- Implemented real-time data acquisition through Dart and acknowledged the contributions of the Flutter community and open-source collaborators.

E-Commence App Using Getx

- Created a streamlined E-Commerce app using the GetX framework.
- Empowers users to purchase mobiles, tablets, headphones, and TVs effortlessly.
- Implemented a seamless "Add to Favorites" feature for enhanced user customization.
